TOTAL PROJECT VALUE

8,161 USD 3 months**50%** CCF GRANT **8,161 USD****50%** MATCHING FUNDS **8,161 USD**
TSPNOPI (in-kind)

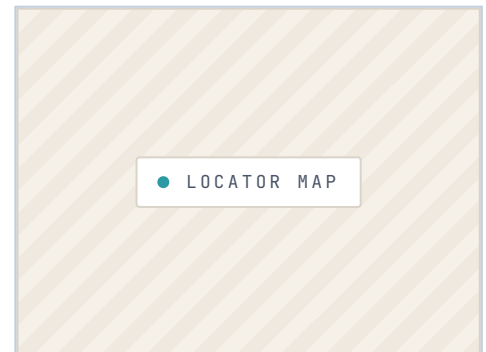

Context and approach

Montalban (Rodriguez) suffers deforestation, quarrying, flooding and soil erosion, and solo parents have few sustainable livelihood options. Seedling production for restoration has not been sustained or linked to income.

The Solo Parent National Organization Philippines is establishing a community bamboo nursery and green livelihood centre run by solo parents, women and youth, producing seedlings for planting on uplands and riverbanks.

Project outputs

- Establish a bamboo nursery with greenhouse, kubo and water line
- Train 25 members in bamboo propagation and green livelihood management
- Produce and maintain bamboo seedlings with organic fertiliser
- Plant bamboo on upland and riverbank areas with community awareness
- Solo parents earn from seedling production and restoration work
- Bamboo stabilises riverbanks and eroded slopes around Montalban
- A community nursery sustains seedling supply beyond the grant
